

# Provost & Pritchard Environmental Site Assessment

Provost & Pritchard Consulting Group's registered environmental assessors, geologists, hydrogeologists, and engineers offer extensive experience in environmental assessments, remedial investigations, and action plans for private and public agency clients. Our staff has conducted hundreds of Phase I Environmental Site Assessments (ESAs) and has significant experience with Phase II and III ESAs associated with the remediation of gasoline and diesel, as well as pesticides and chlorinated solvents. With our environmental expertise, our staff is able to walk our clients step-by-step through the environmental process, from the initial assessment, through the remediation, and eventually to project close-out.

## Site Assessments Services

- **Phase I:** property transfer studies, Brownfields studies, EPA All Appropriate Inquiries (AAI), due diligence under CERCLA
- **Phase II:** Sampling and Analysis Plan, remedial investigations, corrective action plans, human health risk assessments, ecological risk screening, groundwater monitoring plans, groundwater monitoring well installation, annual and quarterly monitoring and reporting
- **Phase III:** Site remediation of soil and groundwater; water, soils and air risk-based site closure; underground fuel tank cleanups; pond closures
