Engineer Chad Wegley rejoins Provost & Pritchard team

Fresno, CA: Provost & Pritchard Consulting Group announced the staff addition of Chad Wegley as a senior engineer, specialized in municipal infrastructure and water resources. Wegley previously worked for Provost & Pritchard from 2001 until 2009, and served as the chief engineer and general manager for the San Carlos Irrigation and Drainage District in Coolidge, Ariz. during his time away. He will be based out of the firm's Visalia office.

"We are pleased to welcome Chad back as part of the Provost & Pritchard team," said Dale Melville, Provost & Pritchard's president. "A number of our clients were pleased with his past performance, and were excited to hear of his return. His extensive knowledge in municipal infrastructure and irrigation district engineering will expand the firm's ability to serve a wide range of our clients."

With over 12 years of experience, Wegley's expertise encompasses municipal infrastructure design specializing in water supply and water distribution system projects, as well as irrigation/water district management and water supply conveyance. Wegley has been responsible for managing feasibility studies, design and construction management of water supply, water, and wastewater treatment projects for both public agencies and private developers.

Wegley is a registered civil engineer in both California and Arizona. He holds a bachelor's degree in Civil Engineering from California State University, Fresno.

Established in 1968, Provost & Pritchard Consulting Group has a strong tradition of engineering and consulting excellence throughout California. With office locations in Fresno, Clovis, Visalia, Bakersfield, Modesto, and Los Banos, the firm features a mix of seasoned professionals, complemented by younger staff with fresh ideas. Provost & Pritchard specializes in civil and agricultural engineering, environmental and land use planning, hydrogeology and geology, surveying, and construction management services in the areas of water resources, municipal infrastructure, agriculture, site development, and environmental compliance.
