Four new professionals join the Provost & Pritchard team

Fresno, CA: Four new professionals have joined the team at Provost & Pritchard Consulting Group. The newest employees at the firm include: Darylyn Dierberger as an associate geologist, Velvet Gaston, EIT and Mariham Iskandar as assistant engineers, and Phillip Dansby as an assistant CAD technician. Dierberger and Dansby are based out of Provost & Pritchard's Clovis office, Iskandar is based out of the Fresno office, and Gaston is working out of the Visalia office.

"We are pleased to welcome these young professionals to the Provost & Pritchard family," said Ronald Samuelian, Provost & Pritchard's president. "Darylyn will work alongside our environmental specialists and our other geologists. Velvet and Mariham are both recent college graduates in civil and environmental engineering, and will work with our seasoned municipal and water resource engineers. Phillip has extensive experience in CAD software. All four will be an excellent complement to Provost & Pritchard's project teams."

A recent graduate of California State University, Fresno, Dierberger holds a bachelor's degree in geology. She has experience in environmental science, geological mapping, and geographic information systems (GIS). Her previous project experience includes geologic mapping for gold exploration in Mariposa County, and an undergraduate thesis on magma chemistry of Chaos Crags in Lassen Volcanic National Park.

Gaston is a registered engineer-in-training and is a recent graduate from North Carolina State University, with a bachelor's degree in environmental engineering and a minor in microbiology. She has experience in environmental engineering, groundwater monitoring, solid waste disposal processes, as well as AutoCAD and other engineering software programs. Gaston was involved in the Engineers Without Borders program during college, and conducted solid waste management research to evaluate community baselines and ongoing interventions in Sierra Leone.

Iskandar is also a recent college graduate and holds a bachelor's degree in civil engineering from California State University, Fresno. She has been involved with projects related to the study of sustainable engineering solutions in developing communities, and taught engineer-related courses in Cambodia through her involvement with the Engineers Without Borders program. In addition, Iskandar has experience with solar technology and engineering software programs such as AutoCAD and Microstation.

Dansby has an educational background in drafting and design. He is proficient in civil engineering design software such as in AutoCAD, Civil3D and Solidworks programs. Dansby previously worked at the County of Tulare where he gained experience working with engineers to create plan sets, construction phase mark-ups and detour plans, particularly for roadway and bridge projects, as well as maintaining and setting new CAD standards.

-MORE-

Established in 1968, Provost & Pritchard Consulting Group has a strong tradition of engineering and consulting excellence throughout California. With office locations in Fresno, Clovis, Visalia, Bakersfield, Modesto, Los Banos and Chico, the firm features a mix of seasoned professionals, complemented by younger staff with fresh ideas. Provost & Pritchard specializes in civil and agricultural engineering, environmental and land use planning, hydrogeology and geology, surveying, and construction management services in the areas of water resources, municipal infrastructure, agriculture, site development, and environmental compliance.
