Provost & Pritchard adds four new engineering and technical staff

Fresno, CA: Provost & Pritchard Consulting Group has announced the addition of four new staff members: Tom Glover, PE joins the firm's team as a principal engineer; Stephen Grisez as a senior CAD technician; Lacey Payne, EIT as an engineering technician; and Kevin Claybaugh as a field technician.

"We are pleased to welcome Tom Glover, Stephen Grisez, Lacey Payne, and Kevin Claybaugh to our staff," said Dale Melville, Provost & Pritchard's president. "Tom's knowledge and experience with the state and federal water projects will broaden Provost & Pritchard's ability to provide solutions to the challenges facing our municipal and irrigation district clients. And Stephen, Lacey, and Kevin bring their technical experience to the firm's project teams."

With over 32 years of engineering experience, Glover has been involved with projects related to all aspects of water resources projects. As a former deputy director with the California Department of Water Resources, he has an established working relationship with state and federal government agencies. In addition, Glover served as the Deputy General Manager for Westlands Water District, and brings his insight and expertise in district operations and management. Glover is a registered civil engineer, and has a bachelor's degree in Civil Engineering from California State University, Chico.

Grisez has over 27 years of experience in civil, mechanical, structural, and electrical engineering environments. Grisez holds a bachelor's degree in Industrial Technology, Drafting and Design from 2013 certifications in AutoCAD, Civil 3-D and 3dsmax. He also, has extensive experience with 3-D laser scanning.

Payne is an Engineer-in-Training, and a recent graduate of California State University, Fresno with a bachelor's degree in Civil Engineering. She has worked in the engineering field for over three years.

With eight years of field experience, Claybaugh's areas of expertise include the installation of new water, wastewater, and gas line, including digging, drilling, trenching, heavy machinery operations, and customer service.

-MORE-

Established in 1968, Provost & Pritchard Consulting Group has a strong tradition of engineering and consulting excellence throughout California.
