### Provost & Pritchard opens Modesto office

**FRESNO, CA:** To be more centralized and conveniently located for their north Valley clients, Provost & Pritchard Consulting Group has moved their Oakdale office to a Modesto address. The new office is located just off Highway 99 at 4701 Sisk Road, Suite 102, Modesto CA 95356 and can be contacted at (209) 809-2300 or by calling any of the firm's six locations.

"Provost & Pritchard is excited to become part of the Modesto business community," explained Dale Melville, Provost & Pritchard's president. "We anticipate this move will enhance operational efficiencies for clients and employees alike."

Provost & Pritchard associates working out of the Modesto office include:

- Rick Hanks, Operations/Project Manager, who manages the office and has responsibilities for project management and business development;
- Dena Traina, PE, a principal engineer who specializes in design and construction management of municipal infrastructure and national park projects;
- Don Chesney, PE, a principal engineer and agronomist who specializes in water resources, wastewater treatment, and agronomy;
- Jason Toste, PE, a project engineer who specializes in municipal infrastructure and agricultural engineering;
- Romina Pasten, PE, an associate engineer who specializes in design and construction management of municipal infrastructure and national park projects; and,
- Joe Corp, an environmental specialist, specializing in dairy and agricultural environmental compliance work.

Established in 1968, Provost & Pritchard Consulting Group has a strong tradition of engineering and consulting excellence throughout California. With office locations in Fresno, Clovis, Visalia, Bakersfield, Modesto, and Los Banos, the firm features a mix of seasoned engineering, planning, surveying, and environmental professionals, complemented by younger staff with fresh ideas and the most up-to-date technical skills. Provost & Pritchard specializes in civil and agricultural engineering, planning, hydrogeology and geology, surveying, and construction management services in the areas of water resources, municipal infrastructure, agriculture, site development, and environmental compliance.
