Provost & Pritchard promotes three as senior engineers

FRESNO, CA: Provost & Pritchard announced the promotion of three associate civil engineers to a senior-level status. Maija Madec, Keith Mortensen and Jason Toste were promoted to senior engineer positions after demonstrating strong leadership qualities and service to clients.

“Maija, Keith, and Jason are all exceptional engineers at Provost & Pritchard,” said Dale Melville, president of the firm. “They demonstrate the dedication, innovation, and project management capabilities we strive for in our firm.”

Based at Provost & Pritchard’s Clovis office, Madec has over eight years of civil engineering experience, specifically in the field of municipal water resources and wastewater treatment. She has worked on numerous water and wastewater treatment and distribution projects, and served as project manager for the Disadvantaged Community Study for the Tulare Lake Basin. A registered engineer in California, Madec holds a bachelor’s degree in Mechanical Engineering from California State University, Chico.

Mortensen is based at the firm’s Fresno office. Mortensen is a registered civil engineer with over eight years of experience in the analysis, planning, and design of various water resources and infrastructure projects. His expertise includes the design of new well installations, pump stations, control structures, flow measurement facilities, water storage and groundwater recharge basins, monitoring wells, system automation, and grant application preparation. Mortensen received a bachelor’s degree in Civil Engineering from California State University, Fresno.

Toste has 11 years of experience in civil engineering and animal facility design, and is based out of Provost & Pritchard’s Modesto office. He is a registered civil engineer in California and holds a bachelor’s degree in Civil Engineering from California State University, Fresno. Toste is experienced working with both industrial and agriculture clients, with expertise in site improvements design, dairy facility design, and agricultural building design.

Established in 1968, Provost & Pritchard Consulting Group has a strong tradition of engineering and consulting excellence throughout California. With office locations in Fresno, Clovis, Visalia, Bakersfield, Modesto, Los Banos, and Chico, the firm features a mix of seasoned professionals, complemented by younger staff with fresh ideas. Provost & Pritchard specializes in civil and agricultural engineering, environmental and land use planning, hydrogeology and geology, surveying, and construction management services in the areas of water resources, municipal infrastructure, agriculture, site development, and environmental compliance.
