Provost & Pritchard Consulting Group nationally ranked in CE News' Top Ten "Best Firms to Work For"

FRESNO, CA: Civil Engineering News (CE News) honored Provost & Pritchard Consulting Group with a Top Ten in the national "2013 Best Civil Engineering Firms to Work For" program. The firm was ranked tenth overall of small, medium, and large firms.

This is the eleventh year Provost & Pritchard has been on the "Top Firms" list. According to CE News, firms who applied for this prestigious ranking were evaluated comprehensively on firm culture, workplace practices, employee benefits, employee retention rates, professional development, and more – both from the management and staff's perspectives. Firms recognized as "Top Firms," such as Provost & Pritchard, create an environment where their people feel valued, can make a difference, and can clearly see their contribution to the overall mission and success of the firm.

"We know satisfied employees contribute to the satisfaction of our clients, and valuing our employees is a top priority at Provost & Pritchard. That high level of client service, through our employees, is the foundation of our business," said Dale Melville, Provost & Pritchard's president. "Being recognized by CE News as a great place to work is an honor that reflects why Provost & Pritchard is able to recruit and retain quality staff who can successfully work with our valued clients."

Provost & Pritchard's tenth place ranking was determined largely by the results of a confidential Employee Satisfaction Survey of staff. Questions were based on a variety of topics including culture, management style, benefits, staff recognition, compensation, professional development, recruiting, and retention.

Established in 1968, Provost & Pritchard Consulting Group has a strong tradition of engineering and consulting excellence throughout California. With office locations in Fresno, Clovis, Visalia, Bakersfield, Modesto, and Los Banos, the firm features a mix of seasoned professionals, complemented by younger staff with fresh ideas. Provost & Pritchard specializes in civil and agricultural engineering, environmental and land use planning, hydrogeology and geology, surveying, and construction management services in the areas of water resources, municipal infrastructure, agriculture, site development, and environmental compliance.
