Three newly-licensed engineers at Provost & Pritchard

FRESNO, CA: Provost & Pritchard Consulting Group is proud to announce that three of their staff received notice of passing the difficult California Professional Engineers Exam. The three newly-licensed engineers are Micah Bowman, Alex Collins, and Derek Lapsley.

“Passing the test to obtain a professional engineer license is a vital milestone in an engineer’s professional development,” said Dale Melville, the president of Provost & Pritchard. “We are proud of Micah, Alex and Derek for this major accomplishment in their careers. They are a tremendous asset to the Provost & Pritchard staff, and to our clients and their engineering projects. ”

Bowman, a graduate of California Polytechnic State University, San Luis Obispo (Cal Poly) with a Bachelor of Science (B.S.) degree in Bioresource & Agricultural Engineering, has over four years of experience in civil and agricultural engineering. He has worked extensively with agricultural, private and municipal clients to improve their infrastructure, including structural design (concrete water structures, steel and wood buildings), wastewater reclamation (pipeline design, water balance calculations), and county and air district permitting assistance.

Collins is also a Cal Poly graduate, with a B.S. degree in Bioresource & Agricultural Engineering. With over five years of experience, he is specialized in construction management, water resources, hydraulic analysis, and irrigation engineering, and is experienced in field work, and design of water control structures and pipelines, reservoirs, and telemetry improvements.

Lapsley graduated from California State University, Fresno with a B.S. degree in Civil Engineering. He has four years of engineering experience, which includes design of grading and storm drainage, storm water collection systems, roadways, basin, and general infrastructure. He has worked on private and public residential and commercial developments, flood control projects, and has provided engineering services for the National Park Service within Yosemite National Park.

Established in 1968, Provost & Pritchard Consulting Group has a strong tradition of engineering and consulting excellence in the San Joaquin Valley. With office locations in Fresno, Clovis, Visalia, Bakersfield, and Oakdale, the firm features a mix of seasoned engineering veterans, complimented by younger professionals with fresh ideas and the most up-to-date technical skills.

Provost & Pritchard specializes in civil and agricultural engineering, environmental and land use planning, hydrogeology, and surveying services in the areas of water resources, municipal infrastructure, agriculture, site development, and environmental compliance.
